## 'The Fire Brigade'

*The Epic Photoplay of the Heroes of Peace*

Never such spectacular thrills filmed before! The Fire Chiefs of America get together to help put on the screen the true and smashing story of the real heroes of peace. Here it is—a picture that will help you live every thrilling, thrashing moment of the army of fire fighters. See the fire fighters saving buildings of a whole companies buried under falling walls! The greatest modern fire fighters and apparatus in action! Behind the scenes of a smoke eater's life! A thousand "thrilling" moments and action! Action! Action! With May McAvoy and Charles Ray.

## C.G.I.T. Group Selects Name

The intermediate group of the Canadian Girls in Training has named itself the Excelsior Group, with "Seek the Highest" for its motto. This group consists of girls from thirteen to fifteen years of age with Miss Smithson as leader.

During the month of November the Excelsior Group worked out a health project. The features of each meeting were games, sing-song, devotional period, talks by the girls and physical culture. The following talks were given by the girls.

1. What do we mean by physical education?—by Eileen McCullough.

2. Physical Culture and Games as Related to the Health—Phyllis Bowden.

3. Food and the Health—Eva Gill.

4. Sleep and the Health—Elsie McLean.

5. First Aid—Rhea Higgins.

6. The History of Clothing and its Relation to the Health—Marion Gardner.

7. Clothing and the Appearance—Annie Sharp.

8. General Points related to Health and Appearance—Gretchen McNaughton.

These talks were much enjoyed by the girls and were discussed afterwards. Probably the most enjoyable meeting of the month was the hike on November 23rd. The deep snow did not discourage the girls but with merry shouts and songs they waded through the drifts to the corner a mile from town. It was a hungry and noisy crowd that arrived at the tea-rooms about six o'clock where Miss Barclay presided over brown bread, weiners and eggs. As the group sat around the kitchen floor, nothing was heard for a long time but words of appreciation and requests for more edibles.

All voted the meeting a great success. We were pleased to welcome to our group a new member, Freda Bastin, from Carmangay. During December the girls are sewing articles for Christmas presents.

## Lose In Over Time At Vulcan

The Champion hockey team made their first venture of the season to Vulcan on Wednesday evening, where they took the short end of a 5-4 score in an overtime affair. The boys report a splendid time and thoroughly enjoyed the game in every way. A return match will be played on the local ice at four o'clock on Friday afternoon.

## Moose Hunters Successful

D. W. Harper and E. Siler returned from their moose hunt, some hundred miles northwest of Edmonton this week both highly delighted with their experience. They each secured a moose and deer despite rather unfavorable weather. In future they will be entitled to rank as experienced big game hunters.

## Funeral on Saturday

The funeral of the late John Johnson took place on Saturday from W. C. Hoskins' undertaking parlours to the church and thence to the Champion cemetery, Rev. S. R. Hunt officiating. Considering the weather there was a large turnout to do last honors to a widely known old-timer.

time but words of appreciation and requests for more edibles. All voted the meeting a great success. We were pleased to welcome to our group a new member, Freda Bastin, from Carmangay. During December the girls are sewing articles for Christmas presents.

THURSDAY, DEC. 15, 1927

At **Sheffield**, England, a coroner's jury declined to charge a doctor who, when he found his patient had taken an overdose of a dangerous medicine refused to make any effort to save the patient. The patient was being treated for dropsy and heart disease and had suffered terribly.

The Provincial Seed Fair held in **Calgary** from January 16 to 20, 1928, promises to be one of the most successful in years, states Field Crops Commissioner **W. J. Stephen**. Exhibits of grain will be shown by a number of the Alberta growers who have been so successful at the recent Chicago International, including **Horner**, **Trotter**, who won the world's championship in cut and reserve championship in wheat and field crops. A large attendance of farmers in the province interested in the production of high class seed is expected as the fair is being held during the same week as the **U.F.A.** annual convention which also meets in **Calgary**, and the annual meeting of the Alberta Seed Growers' Association will be held at the same time.

**THE AGE OF  
ACHIEVEMENT**

How old is too old? Many carbuncle philosophers, at least those under fifty years of age, contend that little of worth is accomplished by men who have passed the half-century mark. Youth is accustomed to looking at forty as the peak age and that is also established by some compounders of success formulas as the age at which a man must have made his mark in the world if he is going to make it. But Dr. W. A. Newman Dorland, of Chicago, discovers the peak of achievement has been set back considerably.

Summarizing the lives of 400 of the most famous men in history, in an article in the **Welfare Magazine**, of the State of Illinois, Dr. Dorland draws the conclusion that renowned men live from twenty to thirty years longer than those of past ages and that they reach the peak of achievement ten years later in life. He states that fifty was the average age at which the 400 did their best work, but that world leaders who are still living do not reach the limit of their ability until they are past sixty or close to seventy.

"In the World War all the great commanders on both sides, Hindenburg, von Bulow, Foch, Haig and Pershing, were sixty or near it," Dr. Dorland writes. "J. Pierpont Morgan, at the age of seventy, raised \$40,000,000 in forty hours and stopped the panic of 1907." Obviously, the practice of urging retirement on men who have reached sixty is in error. If the United States were to lose the services of its outstanding men who have reached or passed sixty, it would be in a sad plight. This is a high-speed age, an age in which youth is predominant, but it is plain that youth can no longer be gauged by years.—South Bend (Ind.) Tribune.

The output of sugar is to be restricted. This is the only solution capitalists can find for the present food situation. According to the Associated Press, all the biggest sugar exporters of the world met in Paris this month and signed an agreement for a year, whereby less sugar will be grown to allow consumption to catch up to the present over-production.

At this time in England, and all over the world, there are millions of people starving. This so-called over-production is due to the fact that the people have not the money to buy sugar, not because they do not need it. Under the capitalist system there is no way of adjusting these things. It gets worse and worse. We have a continuously greater and greater surplus of food on the one hand and a greater number of unemployed on the other. This is the situation which can never be remedied until the workers and farmers of the world introduce a system of communism when they will be able to use what they pro-

## DECIDE NOT TO CENSURE FORMER PREMIER DRURY

Toronto.—After hours of verbal bickerings and fiery speeches some of which were directed at the premier past and present events in the recent past in the nation's history of the farmers' movement, after motion, amendment, and sub-amendment had been moved and discussed from many angles, the United Farmers of Ontario, in a resolution last decided to not to censure former Premier C. E. Drury for the part he took in the North Haven by-election by election. The decision was reached finally after R. H. Haberl, a member of the United Farmers organization, voted a strong plus to do just that, forget their differences and unite. He asserted that there was a rift in the organization which, if it was not healed, might result in weakening still further an association which already showed a great decrease in members ship strength.

The convention also endorsed J. J. Morrison, general secretary of the U.F.O., after he had denied charges that he had been instrumental in the farmers' organization and also that a "family compact" existed. These accusations had been leveled from the political platform in West Elcho by Mitchell Hepburn.

As a result of the decision on March 10, the convention turned a censure resolution into one which carries with it no criticism for anybody. Instead of censuring those who attacked the U.F.O. candidates in the North Haven by-election, the convention, the resolution as amended and then assumed again, merely approves the action of the North Haven United Farmers in the by-election. The clauses of censure, which were aimed at Mr. Drury were eliminated.

On March 11, the convention voted resolution 21, calling for the dispersal of the U.F.O. political committee and barring United Farmer members of provincial and Dominion Houses of sitting as U.F.O. members.

### League Would Reduce Number of Meetings

**Advocate Three To Four Council Sessions Each Year**

London.—The Daily Telegraph publishes the following from its General Secretary:

The council of the League of Nations yesterday discussed the proposed reduction of the number of council sessions from four to three each year. Miss Hon. Sir Austin Chamberlain, who is the League's general secretary, originator of the proposal, made a plenum that the only reason for the suggestion was that it was most important that as many foreign ministers as possible from the various states which are members of the council should participate, that they might find it difficult to go to Geneva four times each year. Sir Austin said he would not persist with the proposal if it did not meet with general assent.

A preliminary exchange of views took place between the Netherlands, Italian, Chilean, and German representatives and the question was adjourned until a future private meeting of the council.

### Committed For Trial

**Men Charged With Collecting Information About British Forces For Soviets**

London.—George Hansen, a German, and Wilfred Francis McCartney, described as an Irish American, were charged with collecting information on British forces on charges brought under the official secrets act by a magistrate in New Street Court.

The two prisoners are alleged to have attempted to collect information about the British army forces, particularly the Canadian, during a recent hearing. It was brought out that the men were gathering information before it was to be used to Soviet Russia.

### May Tap U.S. Aerial Mail

**Postal Department Considering Lines Where Services Would Connect**

Ottawa.—The tapping by Canadian aerial mail service of the American mail airways at certain points of the trans-Atlantic cable under consideration by the Post Office Department.

The scheme, broadly, is that with a service from Montreal, the United States service could be tapped at Syracuse, Albany, and New York, while the Canadian lines from Western Canada would effect a junction with the United States service at Chicago and St. Paul, and on the coast planes from Vancouver would fly over Seattle.

The Canadian air service would be in the air force alone on the lines, the experiments now being carried out by a private company of Canadians.

Recently an offer was received from a New York firm for establishing a trans-Atlantic cable, but the firm has withdrawn. The plan is to proceed with it and it is now in the inquiry stage, it would be broadly national and calculated to connect with the United States service at centres in the East, Middle West, and Pacific areas across the lines.

Aerial mail service has received a high stage of development, although the mail handled is essentially letters rather than bulky stuff, and, at that, of the more urgent class which is special delivery rate.

### Gold Shipped From New York To London

**First Time Since Outbreak of War**

New York.—Gold has been removed from New York to London for the first time since the outbreak of the Great War in 1914. The shipment, which amounts to \$1,000,000 was announced by the "International Acceptance Bank, Inc." but with the exception of the month of April, no details were made public.

The gold in the form of coins, was removed from the vaults of the Post Office and Bank of New York for forwarding to the Canadian Bank of Commerce in the Canadian Bank of Aquitania, to a correspondent in London. Although the sensational advance in sterling exchange had caused the bank to include in its estimates the month of April, part of the huge bags of gold accumulated in this country since the war might be transferred to England, announcement that a shipment actually had been made on June 21 was reported by the secretary.

### Government Ownership Failure In Belgium

**System Yielded More Revenue In Hands Of A Company**

The first year of Belgian ownership has been a failure, with revenue from quasi-private instead of government ownership of the railroads, a change forced by the financial panic a year ago, that the postoffice, telephone, and telegraph systems are destined soon to be taken out of the inefficient hands of the state.

The whole public ownership system, which potentially is a gold mine, started at a mere \$1,400,000 last year although it had never yielded anything. With the Socialists out of the cabinet and a member of the Liberal party at the head of the department, it is expected that M. Frangoul, the ex-tax collector, finance and controller of the country's financial policy will be given an opportunity to give the theory of public ownership another body blow, making the system yield real money in the hands of an autonomous corporation. Public opinion is divided on the success of the railway experiment and is considered ripe for the transfer which was impossible even 15 months ago.

### Underpaid Farm Help

**Says Low Wages Paid To Farm Women In Canada**

Toronto.—That no self-respecting domestic servant would work for the wages which farm women get for their labor, was the statement by Mrs. May Gossage, Leamington. On behalf of the Farm Women of Ontario. She felt that economic conditions were far from satisfactory for farm women.

Concerning her remarks, Miss Gossage said that the grain price, May 10, had been the highest in the history of the market, from \$2.12 to \$2.61 was reported by the secretary.

### FEDERAL SURPLUS OF 60 MILLIONS IS REPORTED

Ottawa.—With eight months of the fiscal year closed, the surplus of 60 million revenues over expenditures stands at rather more than 60 millions of dollars.

During the month of November the net debt of the Dominion, largely as a result of the war, was reported to have increased by \$17,723,000, or 10 per cent.

Prospects for a substantial surplus in the coming year, with consequent reduction in taxation are therefore considered as very bright.

The decrease in net debt is 15 millions ahead of what it was on the same date last year.

According to the recent monthly statement, there are 20 millions of dollars more than in the eight months of last year; total expenditure on account of the war is up five millions.

Current expenses up five millions, in come tax is up six millions, post office up three millions. Excise taxes (gated stamp, etc.) are down ten millions.

On Nov. 29 the net debt of Canada was \$2,87,019,782; on Nov. 30 last year, it was \$2,84,456,755.

### Observe Friendships Pact

**Tryst Kept At St. Paul's Cathedral**

London.—After 22 years

London—Observing a pact of friendship made 22 years ago, four men met on the steps of St. Paul's Cathedral one day recently and sang "All Land Sync" with joined hands. They were the survivors of a group of 100 British sailors who, in 1905, when following a mutiny, made a pact to meet at St. Paul's 20 years later. The tryst was kept two years ago by the four, two of the others having fallen in the war which followed.

The survivors served to make the gathering an annual event.

As the friends were on the point of leaving the Cathedral to go to dinner together, they were joined by a fourth survivor of their former crew, who, with his daughter, had come to join the tryst on behalf of her late husband.

**Winnipeg Police Award**

Ottawa, Ont.—W. J. McCallum, of Brampton and Regina, was a big win at the provincial fair yesterday, capturing both championships in the Percheron classes and junior and grand Clydesdale. Lord Lonsdale, a young animal which won the top at both the Toronto Royal and the Ottawa Winter Fair.

**Claims Continents Are Drifting Apart**

**Difference Of Three Feet Yearly Between Europe And America Says Scientist**

Ottawa.—A variation in the difference between the Tidal Station at Greenwich, England, has been noted by officials at the Dominion observatory since longitudes were checked in 1901. Support thus is lent to the theory of Professor Wegener, a German scientist, that the continents of Europe and America are drifting apart.

Further comparisons will be made in another ten years and if the variation continues to increase, the drift of the continents will be definitely established.

Professor Wegener was struck by the fact that there were projections in the coast lines of Europe and Africa which apparently fitted into America, and that the continents were drifting apart.

He also noted that the

Public opinion is divided on the success of the railway experiment and is considered ripe for the transfer which was impossible even 15 months ago.

The whole public ownership system, which potentially is a gold mine, started at a mere \$1,400,000 last year although it had never yielded anything. With the Socialists out of the cabinet and a member of the Liberal party at the head of the department, it is expected that M. Frangoul, the ex-tax collector, finance and controller of the country's financial policy will be given an opportunity to give the theory of public ownership another body blow, making the system yield real money in the hands of an autonomous corporation.
